

ECDemP Adopt-A-Highway A Blue Tiger Activity

The Michigan Department of Transportation's (MDOT) *Adopt-A-Highway* program was created for Michiganders to help keep Michigan's roadways clean and attractive.

The Eaton County Democratic Party (ECDemP) is chartered for 2.1 mi. of I-69 from Royston Rd to Thornapple Creek. It actually works out to be 4.2 as we hold both sides of the road!

It does not cost the ECDemP anything to belong to the program other than some money for gloves and a first aid kit. MDOT provides us with garbage bags that they pick up along the road.

All we need to do is go out three times a year and pick up any trash along our designated highway roadside. It is just that simple.

Besides the sense of pride and satisfaction that the ECDemP has for our little piece of Michigan's highway system, we are also contributing to the cleanliness and appearance of Eaton County. Let's not forget that the ECDemP gets a little recognition from the two signs that mark our assigned area! However, we know that even without this, Dems are great at taking care of our environment!
